Jakarta, Indonesia

Informatics graduate with experience building end-to-end web applications using React, Node.js, Flask, and MongoDB. Proven ability to complete real-world projects for clients, including a sales management system, a mental health platform, and a STEM-based education platform. Experienced in working both independently and in cross-disciplinary teams, with a strong focus on code quality, user experience, and system documentation.

EXPERIENCE

Project - 17th Independence Day Competition Website (RT 011) Jul 2026 - Aug 2026
- Jakarta

- Developed a community event website for competition information and online participant registration.
- Streamlined participant registration and managed participant data efficiently.
- Built an admin dashboard to manage competitions, announcements, galleries, and website content.
- Provided participant lists, event schedules, countdowns, and galleries for easy public access

Project - Sales Report Warkop Sudi Mampir - Jakarta Apr 2026 - May 2026

- Developed a web-based Coffee stall management application to simplify daily operational recording and reporting.
- Managed product data, stock availability, and inventory movement to help monitor business supplies.
- Recorded daily sales transactions and generated revenue reports for easier financial tracking.
- Provides dashboards and visual summaries of sales performance, top-selling menu items, stock usage, and low-stock alerts to support decision-making.
- Organized historical transaction data and reports, making daily and monthly business evaluations more efficient.

Final Project - Universitas YARSI - Fakultas Psikologi & Teknologi Informasi - Universitas YARSI - Fakultas Psikologi & Teknologi Informasi Aug 2024 - Jan 2025

Fullstack Web Developer

Model Prototipe Intervensi Kesehatan Mental Berbasis Web untuk Remaja Dewasa di Indonesia dengan Pendekatan internet-based Cognitive Behavioral Therapy (i-CBT)

- Building a full-stack mental health web platform using Flask and MongoDB for Indonesian young adults.
- Designing a responsive interface with Cognitive Behavioral Therapy (CBT) features that is accessible across multiple devices.
- Conducting user testing and system evaluation to improve scalability, usability, and user experience.
- Collaborating with a multidisciplinary team (psychology + IT) for feature planning, documentation, and troubleshooting.

Kampus Merdeka MSIB - Educourse.id PT Maleo Edukasi Teknologi Jan 2024 - Jun 2024

Platform And Web Developer (Specialist Education Platform)

- Developed a full-stack web application using React, Django, and Node.js for an AR, AI, and IoT-based STEM education platform.
- Designed an authentication system and RESTful API for secure and efficient access between services.
- Developed interactive elements and data visualizations to enhance user engagement on the platform."
- Developed technical documentation and reports to support team collaboration and system maintenance.

Education

Universitas YARSI  - Jakarta Pusat, Indonesia Aug 2021 - Apr 2025

Bachelor of Computer Science (S.Kom), 3.61/4.00

- Undergraduate Thesis Title : Model Prototipe Intervensi Kesehatan Mental Berbasi Web Untuk Remaja Dewasa Di Indonesia Dengan Pendekatan Internet-Based Cognitive Behavior Therapy (I-CBT)
- Graduation Predicate : Cum Laude

Organizational experience

Program KKN Oct 2024 - Dec 2024

Member

- Carrying out community service, including health education and stunting prevention.
